

Certificate in Comprehensive Pilates Qualification Standards

PLEASE NOTE

- If you are applying for the Certificate in Comprehensive Pilates, you must only complete the mapping for the four Comprehensive Pilates standards in the Comprehensive Mapping Toolkit (provided in the Accreditation Pack). NB your learners must have a pre-requisite of a PD:Approval accredited Certificate in Mat-based Pilates.
- If you are applying for the **Diploma in Comprehensive Pilates**, you must complete the full Comprehensive Pilates mapping toolkit which includes the Core and Mat-based units.
- If you specify that your students must have a **PD:Approval accredited Gym Instructor or Group Exercise qualification as a prerequisite to the Pilates qualification you are offering**, you do not need to map to the five Core units.

These standards describe the competencies required to instruct Comprehensive Pilates sessions to already qualified Mat-based Pilates Instructors.

The total required Guided Learning Hours is 225 to include 150 face-to-face hours, which are identified on each unit page. The **Comprehensive Qualification & Assessment Structure** in your Accreditation Packs also shows a full breakdown of the hours.

These standards include giving clear instructions, demonstration of skills, techniques of teaching and correcting exercise with clear and positive feedback and monitoring a Comprehensive Pilates session. The goal of the Pilates Instructor is to impart the knowledge, skill and confidence for clients to be able to follow an exercise plan for a lifetime. The Pilates Instructor will normally be working without direct supervision.

Wherever the term 'standards' is used in this document, this means skills (or occupational) standards, not any other types of standards that may be used in Pilates industry.

Click on the link below to take you to each unit.

The unit code given in brackets refers to the ICREPs Global Standards.
